

Recycling & Salvage Makes Good Business Sense

Earth First minimizes landfilling and its impacts on our air and water. We sort, reuse and recycle your construction and demolition debris (C&D) putting valuable materials back into production and earning you valuable LEED® points in the process. Responsible reuse and recovery of your site materials has never been more important.

At Earth First, we're veterans in the roll-off container/C&D recycling business and can process debris from new construction, remodeling and demolition as well as land clearing debris projects that include:

Concrete

Untreated Wood

All Metals

Cardboard

Gypsum Board

Brick

Plastic, Paper, Bottles, Cans

Sustainable Solutions for C&D Debris

Earth First works in partnership with you on all size projects to manage your site waste stream. **Our bright blue Earth First containers are available in a variety of sizes to match the job.**

	H	W	L
10 CUBIC YARD	51"	8'	12'
20 CUBIC YARD	53"	8'	22'
30 CUBIC YARD	71"	8'	22'
40 CUBIC YARD	89"	8'	22'
65 CUBIC YARD	95"	8'	34'

Compactors Are Available.

Our goal is to reuse and recycle as much of your site debris as possible, usually as much as 85% from each site. At our recycle facility, we shred, crush, reuse and recycle to defer as much material from the landfill as possible. When C&D waste is reduced, the environment wins and so do you.

Earn LEED® Points

Earth First helps contractors earn LEED points and meet standards for project certification based on U.S. Green Building Council guidelines. We track debris removal & recycling and provide documentation to insure you earn points towards LEED® certification.
